Supplier Intelligence: AI-Powered Risk & Vendor Monitoring (Procurement)

Client Fortune 500 Manufacturing Company

Challenge:

Tracking vendor risks and supply chain disruptions was inefficient.

Lack of real-time insights into supplier performance and external factors.

Manual monitoring processes led to missed critical updates.

Solution:

Implemented **Specificic Supplier Intelligence**, an AI-powered platform for real-time monitoring.

Automated **news & risk alerts**, tracking vendor performance and external disruptions.

Provided **AI-driven insights** for proactive risk management and supplier optimization.

Result:

60%

reduction in manual tracking efforts, improving operational efficiency.

Real-time supplier monitoring, allowing proactive risk mitigation.

Optimized procurement decisions, leading to cost savings.
